EDUCATION

Gautam Buddha University, Greater Noida   **CGPA:8.36**

B.Tech (Computer Science and Engineering**), 2026**

Coursework: Data Structure and Algorithms, Operating System, DBMS, Computer Networks

WORK EXPERIENCE

Software Developer Intern, BOP Realty | 8k+ Followers on Linkedin   **July 2025 - Present**

- Designed and developed the main company website (bop.in) using WordPress, ensuring a responsive and user-friendly interface.
- Worked on web applications using the MERN stack (MongoDB, Express.js, React, Node.js) for both frontend and backend development.
- Built and tested mobile app features using React Native, focusing on smooth navigation and clean UI.
- Used GSAP animations to create interactive and visually appealing web elements.
- Collaborated with the development team to debug, optimize, and deploy projects effectively.
- Gained practical experience in full-stack development, UI/UX design, and modern web technologies

PROJECTS

BOP.in (Company Website)
- Designed and developed the main company website using WordPress, focusing on responsiveness and modern UI using Gsap and Elementor.
- Conducted research and analysis of real estate websites to plan site structure and features.
- Customised themes and integrated plugins for better performance and SEO optimisation.
- Collaborated with the design team to align visuals with brand identity.
- Delivered a fast, user-friendly website that enhanced the company's digital presence.

HRMS Application (React Native & Node.js)
- Developing a Human Resource Management System for internal use at BOP.in.
- Built mobile interfaces using React Native for employee attendance, leave, and profile management.
- Designed and integrated backend APIs using Node.js and Express.js.
- Connected application with a database to manage employee records securely.
- Improved HR efficiency by automating manual processes and enabling mobile access.

Waste Manager Website (HTML, CSS, JavaScript)
- Created a responsive and interactive website for a waste management service.
- Designed clean layouts using HTML and CSS, ensuring accessibility across devices.
- Added dynamic features like form validation and service listings using JavaScript.
- Focused on lightweight performance and user-friendly navigation.
- Showcased practical front-end skills and attention to usability.
